USB-C to Lightning Cable

USB-C to Lightning Cable

As part of our efforts to reach carbon neutrality by 2030, iPhone 14 and iPhone 14 Plus do not include a power adapter or EarPods. Included in the box is a USB-C to Lightning Cable that supports fast charging and is compatible with USB-C power adapters and computer ports

We encourage you to reuse your current USB-A to Lightning cables, power adapters and headphones that are compatible with these iPhone models. But if you need any new Apple power adapters or headphones, they are available for purchase.

iPhone and the Environment

iPhone 14 and iPhone 14 Plus are designed with the following features to reduce their environmental impact:<sup>18</sup>

See the iPhone 14 and iPhone 14 Plus Product Environmental Reports

Apple and the Environment

We're committed to making our products without taking from the earth, and to become carbon neutral across our entire business, including products, by 2030.

\* To identify your iPhone model number, see [support.apple.com/en-gb/HT3939](https://support.apple.com/en-gb/HT3939). For details on 5G and LTE support, contact your provider and see [apple.com/uk/iphone/cellular](https://apple.com/uk/iphone/cellular). Mobile data technology support is based on iPhone model number and configuration for GSM networks.

Available space is less and varies due to many factors. A standard configuration uses approximately 12GB to 17GB of space, including iOS 18 with its latest features and Apple apps that can be deleted. Apple apps that can be deleted use about 4.5GB of space, and you can re-download them from the App Store. Storage capacity subject to change based on software version, settings and iPhone model.

iPhone 14 and iPhone 14 Plus are splash, water and dust resistant and were tested under controlled laboratory conditions with a rating of IP68 under IEC standard 60529 (maximum depth of 6 metres up to 30 minutes). Splash, water and dust resistance are not permanent conditions. Resistance might decrease as a result of normal wear. Do not attempt to charge a wet iPhone; refer to the user guide for cleaning and drying instructions. Liquid damage not covered under warranty.

Apple's Regulated Substances Specification describes Apple's restrictions on the use of certain

chemical substances in materials in Apple products, accessories, manufacturing processes, and packaging used for shipping products to Apple's end customers. Restrictions are derived from international laws or directives, regulatory agencies, eco-label requirements, environmental standards and Apple policies. Every Apple product is free of PVC and phthalates except for AC power leads in India, Thailand (for two-pin AC power leads) and the Republic of Korea, where we continue to seek government approval for our PVC and phthalates replacement. Apple products comply with the European Union Directive 2011/65/EU and its amendments, including exemptions for the use of lead such as high-temperature solder. Apple is working to phase out the use of these exempted substances for new products where technically possible.
