Year introduced : 2023

Titanium design, Ceramic Shield front, Textured matt glass back

Width:76.7 mm (3.02 inches)

Width:76.7 mm (3.02 inches)

Height:159.9 mm (6.29 inches)

Height:159.9 mm (6.29 inches)

Depth:8.25 mm (0.32 inches)

Weight:221 grams (7.81 ounces)

Super Retina XDR display

6.7?inch (diagonal) all?screen OLED display

2796x1290-pixel resolution at 460 ppi

ProMotion technology with adaptive refresh rates up to 120Hz

2,000,000:1 contrast ratio (typical)

1,000 nits max brightness (typical); 1,600 nits peak brightness (HDR); 2,000 nits peak brightness (outdoor)

Support for display of multiple languages and characters simultaneously

The iPhone 15 Pro Max display has rounded corners that follow a beautiful curved design, and these corners are within a standard rectangle. When measured as a standard rectangular shape, the screen is 6.69 inches diagonally (actual viewable area is less).

Splash, Water and Dust Resistant3

Rated IP68 (maximum depth of 6 metres up to 30 minutes) under IEC standard 60529

Built into your iPhone, Apple Intelligence is the personal intelligence system that helps you write,

express yourself and get things done effortlessly. With groundbreaking privacy protections, it gives you peace of mind that no one else can access your data ? not even Apple.30

New 6?core CPU with 2 performance and 4 efficiency cores

New 16?core Neural Engine

48MP Main: 24mm, ?/1.78 aperture, second?generation sensor?shift optical image stabilisation, 100% Focus Pixels, support for super?high?resolution photos (24MP and 48MP)

12MP Ultra Wide: 13mm, ?/2.2 aperture and 120° field of view, 100% Focus Pixels

12MP 2x Telephoto (enabled by quad?pixel sensor): 48mm, ?/1.78 aperture, second?generation sensor?shift optical image stabilisation, 100% Focus Pixels

12MP 5x Telephoto: 120mm, ?/2.8 aperture, 3D sensor?shift optical image stabilisation and autofocus, tetraprism design

5x optical zoom in, 2x optical zoom out; 10x optical zoom range

Digital zoom up to 25x

Customisable default lens (Main)

Sapphire crystal lens cover

Adaptive True Tone flash

Next-generation portraits with Focus and Depth Control

Portrait Lighting with six effects

Night mode portraits enabled by LiDAR scanner

Panorama (up to 63MP)

Wide colour capture for photos and Live Photos

Lens correction (Ultra Wide)

Image formats captured: HEIF, JPEG and DNG

4K video recording at 24 fps, 25 fps, 30 fps or 60 fps

1080p HD video recording at 25 fps, 30 fps or 60 fps

720p HD video recording at 30 fps

Cinematic mode up to 4K HDR at 30 fps

Action mode up to 2.8K at 60 fps

Action mode up to 2.8K at 60 fps

HDR video recording with Dolby Vision up to 4K at 60 fps

ProRes video recording up to 4K at 60 fps with external recording

Academy Color Encoding System

Macro video recording, including slo?mo and time?lapse

Slo?mo video support for 1080p at 120 fps or 240 fps

Time-lapse video with stabilisation

Second?generation sensor?shift optical image stabilisation for video (Main)

Optical image stabilisation for video (3x Telephoto)

3D sensor?shift optical image stabilisation and autofocus for video (5x Telephoto)

Digital zoom up to 9x (iPhone 15 Pro) and 15x (iPhone 15 Pro Max)

Cinematic video stabilisation (4K, 1080p and 720p)

Take 8MP still photos while recording 4K video

Video formats recorded: HEVC, H.264, AV1 and ProRes

Autofocus with Focus Pixels

iPhone 15 Pro Max

iPhone 15 Pro Max

USB?C Charge Cable (1m)

USB?C Charge Cable (1m)

As part of our efforts to reachcarbon neutrality by 2030, iPhone 15 Pro and iPhone 15 Pro Max do not include a power adapter or EarPods. Included in the box is a USB?C Charge Cable that supports fast charging and is compatible with USB?C power adapters and computer ports.

We encourage you to use any compatible USB?C power adapter. If you need a new Apple power adapter or headphones, they are available for purchase.

iPhone and the Environment

iPhone 15 Pro and iPhone 15 Pro Max are designed with the following features to reduce their environmental impact:20

See the iPhone 15 Pro and iPhone 15 Pro Max Product Environmental Report

Progress towards Apple?s 2030 carbon-neutral goal

20% recycled or renewable content21

28% emissions reduction against baseline22

38% of manufacturing electricity is sourced from supplier clean energy projects23

Made with better materials

100% recycled aluminium in the internal structural frame

100% recycled cobalt in the battery24? a first for Apple

100% recycled copper foil in the main logic board and ? in a first for Apple ? the MagSafe inductive charger

100% recycled copper wire and 100% recycled tungsten in the Taptic Engine

100% recycled gold in the wire of all cameras, the plating of multiple printed circuit boards and the USB?C connector

100% recycled rare earth elements in all magnets, representing 100% of the rare earth elements in the device25

100% recycled rare earth elements in all magnets, representing 100% of the rare earth elements in the device25

100% recycled tin in the solder of multiple printed circuit boards

35% or more recycled plastic in multiple components

Exceeds US Department of Energy requirements for battery charger systems26

Mercury-, BFR-, PVC- and beryllium-free

No established final assembly sites generate waste sent to landfill as part of Apple?s Zero Waste Programme

All final assembly supplier sites are transitioning to 100% renewable energy for Apple production

99% or more fibre-based packaging28

100% of virgin wood fibre comes from responsibly managed forests29

Apple and the Environment

We?re committed to making our products without taking from the earth, and to become carbon neutral across our entire business, including products, by 2030.

* To identify your iPhone model number, seesupport.apple.com/en-gb/HT3939. For details on 5G and LTE support, contact your provider and seeapple.com/uk/iphone/cellular. Mobile data technology support is based on iPhone model number and configuration for GSM networks.

Available space is less and varies due to many factors. A standard configuration uses approximately

12GB to 17GB of space, including iOS 17 with its latest features and Apple apps that can be deleted. Apple apps that can be deleted use about 4.5GB of space, and you can re-download them from the App Store. Storage capacity subject to change based on software version, settings and iPhone model.

Available space is less and varies due to many factors. A standard configuration uses approximately 12GB to 17GB of space, including iOS 17 with its latest features and Apple apps that can be deleted. Apple apps that can be deleted use about 4.5GB of space, and you can re-download them from the App Store. Storage capacity subject to change based on software version, settings and iPhone model.

Size and weight vary by configuration and manufacturing process.

iPhone 15 Pro and iPhone 15 Pro Max are splash, water and dust resistant and were tested under controlled laboratory conditions with a rating of IP68 under IEC standard 60529 (maximum depth of 6 metres up to 30 minutes). Splash, water and dust resistance are not permanent conditions. Resistance might decrease as a result of normal wear. Do not attempt to charge a wet iPhone; refer to the user guide for cleaning and drying instructions. Liquid damage not covered under warranty.

Available only in selected cities and public transport systems. Requires eligible device and OS version.See here for details.

Service is included for free for two years with the activation of any iPhone 15 model. Connection and response times vary based on location, site conditions and other factors.

Seesupport.apple.com/en-gb/HT213885for more information.

Service is included for free for two years with the activation of any iPhone 15 model. Connection and response times vary based on location, site conditions and other factors. Seesupport.apple.com/en-gb/HT213885for more information.

iPhone 15 and iPhone 15 Pro can detect a serious car crash and call for help. Requires a mobile data connection or Wi?Fi calling.

Data plan required. 5G, Gigabit LTE, VoLTE and Wi?Fi calling are available in selected markets and through selected network providers. Speeds are based on theoretical throughput and vary based on site conditions and network. For details on 5G and LTE support, contact your provider and seeapple.com/uk/iphone/cellular.

Wi?Fi 6E connectivity available in countries where supported.

Ultra Wideband availability varies by region.

FaceTime calling requires a FaceTime?enabled device for the caller and recipient and a Wi?Fi connection. Availability over a mobile network depends on network provider policies; data charges may apply.

Standard dynamic range video content only.

Standard dynamic range video content only.

Siri may not be available in all languages or in all areas, and features may vary by area. Internet access required. Mobile data charges may apply.

USB 3 cable with 10Gb/s speed required.

All battery claims depend on network configuration and many other factors; actual results will vary. Battery has limited recharge cycles and may eventually need to be replaced. Battery life and charge cycles vary by use and settings. Seeapple.com/uk/batteriesandapple.com/uk/iphone/battery.htmlfor more information.

Wireless chargers sold separately.

Testing conducted by Apple in August 2023 using pre-production iPhone 15 Pro and iPhone 15 Pro Max units and software and accessory Apple USB?C Power Adapter (20W Model A2305). Fast?charge testing conducted with drained iPhone units. Charge time varies with settings and environmental factors; actual results will vary.

Use of eSIM requires a wireless service plan (which may include restrictions on switching service providers and roaming, even after contract expires). Not all providers support eSIM. Use of eSIM in

iPhone may be disabled when purchased from some providers. See your provider for details. To learn more, visitsupport.apple.com/en?gb/HT212780.

Use of eSIM requires a wireless service plan (which may include restrictions on switching service providers and roaming, even after contract expires). Not all providers support eSIM. Use of eSIM in iPhone may be disabled when purchased from some providers. See your provider for details. To learn more, visitsupport.apple.com/en?gb/HT212780.

Wireless broadband recommended; fees may apply.

In China mainland, you can use Apple Pay on the web in Safari only on compatible iPhone and iPad models using iOS 11.2 or later.

Data accurate as of product launch.

Product recycled or renewable content is the mass of certified recycled material relative to the overall mass of the device, not including packaging or in-box accessories.

Carbon reductions are calculated against a baseline scenario: 1) No use of clean electricity for manufacturing or product use, beyond what is already available on the grid (based on regional emissions factors). 2) Apple?s carbon intensity of key materials as of 2015 (our baseline year for our 2030 product carbon-neutrality goal). Carbon intensity of materials reflects use of recycled content and production technology. 3) Apple?s average mix of transport modes (air, rail, sea, land) by product line across three years (fiscal years 2017 to 2019) to best capture the baseline transport emissions of our products.

Carbon reductions are calculated against a baseline scenario: 1) No use of clean electricity for manufacturing or product use, beyond what is already available on the grid (based on regional

emissions factors). 2) Apple?s carbon intensity of key materials as of 2015 (our baseline year for our 2030 product carbon-neutrality goal). Carbon intensity of materials reflects use of recycled content and production technology. 3) Apple?s average mix of transport modes (air, rail, sea, land) by product line across three years (fiscal years 2017 to 2019) to best capture the baseline transport emissions of our products.

We estimate the percentage of electricity-related emissions in our manufacturing that is sourced from clean electricity by attributing to our carbon model clean energy procured by our suppliers in the prior fiscal year, based on the supplier manufacturing allocations at time of product launch. Included in this number is only clean electricity that Apple or its suppliers have procured as part of Apple?s Supplier Clean Energy Programme.

On a mass balance allocation.

Excludes trace amount of rare earth elements found outside the magnets.

Efficiency performance is based on the US Department of EnergyFederal Energy Conservation Standards for Battery Chargers.

Apple?s Regulated Substances Specification describes Apple?s restrictions on the use of certain chemical substances in materials in Apple products, accessories, manufacturing processes, and packaging used for shipping products to Apple?s end customers. Restrictions are derived from international laws or directives, regulatory agencies, eco?label requirements, environmental

standards and Apple policies. Every Apple product is free of PVC and phthalates except for AC power leads in India, Thailand (for two?pin AC power leads) and the Republic of Korea, where we continue to seek government approval for our PVC and phthalates replacement. Apple products comply with the European Union Directive 2011/65/EU and its amendments, including exemptions for the use of lead such as high-temperature solder. Apple is working to phase out the use of these exempted substances for new products where technically possible.

Apple?s Regulated Substances Specification describes Apple?s restrictions on the use of certain chemical substances in materials in Apple products, accessories, manufacturing processes, and packaging used for shipping products to Apple?s end customers. Restrictions are derived from international laws or directives, regulatory agencies, eco?label requirements, environmental standards and Apple policies. Every Apple product is free of PVC and phthalates except for AC power leads in India, Thailand (for two?pin AC power leads) and the Republic of Korea, where we continue to seek government approval for our PVC and phthalates replacement. Apple products comply with the European Union Directive 2011/65/EU and its amendments, including exemptions for the use of lead such as high-temperature solder. Apple is working to phase out the use of these exempted substances for new products where technically possible.

Breakdown of US retail packaging by weight. Adhesives, inks and coatings are excluded from our calculations of plastic content and packaging weight.

Responsible sourcing of wood fibre is defined inApple?s Responsible Fibre Specification. We consider wood fibres to include bamboo.

Apple Intelligence is available in beta on all iPhone 16 models, iPhone 15 Pro and iPhone 15 Pro Max, with Siri and device language set to US English, as an iOS 18 update. English (Australia, Canada, Ireland, New Zealand, South Africa, UK) language support available this

December. Some features and support for additional languages, like Chinese, English (India, Singapore), French, German, Italian, Japanese, Korean, Portuguese, Spanish, Vietnamese and others, will be coming over the course of the next year.
